Skills

I have a great experience in web design & development. Along different types of frameworks, I have also worked in Figma for UI/UX design. I am great in following skillset:

- HTML/CSS/JS	- Git & GitHub	-Bootstrap	-Figma/UI Design
-NodeJS	-ReactJS	-Python	-Photoshop
-MongoDB	-SQL	-Terminal	

Projects

OSS WebApp / ReactJS -- NodeJS -- MongoDB

[Check It Here](#)

AIT Open Source Software club decided to launch our website but with an out of the world design. And I was the one chosen to design this, I did a pretty good job at it by designing an interface that is rarely seen on the web with a pinch of modernisation. Definitely worthy of having a look.

Innervve Homepage / Frontend Project

<http://rishabhrathore.me/innervhome>

Working in a club at our college we were building the website for our hackathon, INNERVE - Biggest Hackathon In Pune. My Challenge was to create an attractive and elegant HomePage. So here was my final product and everyone liked it. It really is a decent Homepage for a hackathon website.

To-Do List / NodeJS -- MongoDB

<http://navylist.herokuapp.com/Resume>

Made this to-do List because it's the hello world of WebApps. To learn the basics of NodeJS routing and MongoDB to store the lists. I also tested my skills of "neomorphism" in this project. Looks Good !

Tindog / Bootstrap

<http://rishabhrathore.me/tindog>

Started this project while learning web development's bootstrap framework. The main goal was to build a responsive website that looks seamless and fluent in all devices of different devices.

Education

Army Institute Of Technology, Pune / Graduation B.E.

June 2019 - PRESENT , PUNE

Pursuing my B.E. degree here with a Computer Engineering field. Since June 2019 my 1st year SGPA is 8.9 GPA & I tend to maintain it further.

Army Public School / 1st - 12th Class

April 2005 - April 2016, BIKANER

Studied my whole school & high-school curriculum there, alongside some tuitions. My 10th & 12th CBSE boards percentage are 82% & 87% respectively.
